Yorkshire Pine Factory

Hand & Spray paint facilities

All our furniture is supplied in natural wood finished using 120 grid sandpaper, additional preparation might be required prior to finishing the units.

Our in house hand or spray paint finishing service uses a quality eco-friendly paint matched to any RAL or Farrow & Ball colour, primer is matched to the colour of the top coat specified. All painted units are flattened between coats and we do apply a minimum of 2 primer coats and 2 top coats.

For a natural look we recommend either a clear lacquer or hand paint finish. To obtain a flat smooth finish we recommend a spray paint finish. A 100% flat finish cannot be guaranteed on solid wood, grain and minor imperfections might still remain visible after painting.

Our paint or lacquer finish is a soft satin (20% sheen), we can offer a sheen % to increase or decrease the shine of the finish, we do not offer a gloss finish. Customers can specify or supply their own paint, lacquer, stain or wax. As an alternative to a hand or spray paint finish YPF offers a lacquer, stain or wax finish.

When a clear lacquer, stain or wax is applied, shade/grain differences remain visible between sections of the wood. For an additional charge units can be painted in a combination of colours, e.g. painted exterior and clear lacquer interior. For an additional charge we can paint different units in different colours, wardrobes, drawers and bedside cabinets can either be painted in the same colour or in a combination of colours.

Wood is a hygroscopic material, items when finished might require remedial work once they have climatised to their new environment, any site visits to carry out remedial work to finishing, all return or redelivery costs will have to be paid for by the customer.
